Edward Palmer
5620 Knox Ave. S
Minneapolis, Mn. 55419

Dear Mr. Palmer:

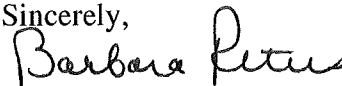

This letter expresses our appreciation for your recent efforts in helping us solve some rather difficult and complex problems. Your knowledge of theoretical and practical electrical engineering and biomedicine was quickly mobilized for insightful problem-solving. With minimal initial guidance, you were able to focus, identify, and resolve some difficult and sometimes confounded issues. You demonstrated high intelligence, helpful social skills, and occupational reliability.

Sincerely,

George A. Peters

Sincerely,

Barbara J. Peters
